

Enhancements to LexisNexis @ www.lexis.com.

Powerful new enhancements have been added to lexis.com to eliminate steps in the research process, saving you time and increasing your productivity. These enhancements include:

Get a Document

Retrieve the right document by citation quickly and easily with one simple function. No need to choose between LEXSEE and LEXSTAT. In addition, use "Citation Formats" to display a single list of acceptable citation formats for getting or Shepardizing documents.

Tagged Documents

Document checkboxes are now available in ALL browse formats to mark documents for print/download/fax/email delivery. In addition to tagging for delivery, the tag feature can be used for FOCUS searching as well. This enables you to utilize your answer set more effectively by eliminating the need to weed through documents you have already deemed irrelevant.

Document Page Count

New page count on the top right side of your screen estimates the number of pages in any document. This allows you to anticipate delivery volume before printing large documents. Lexis.com also gives you the ability to print pinpoint pages or a range of pages from a selected document.

Streamlined Document Delivery Options

The ability to select all delivery options from a single page makes it easier to locate the most frequently used options and provides flexibility in delivery. Documents can quickly be downloaded to Microsoft Word, WordPerfect, or Adobe PDF. Remember that dual column print is available for case law.

Power Navigation Bar

Whether using Internet Explorer or Netscape, don't forget about the navigation bar located at the bottom of your browser screen. This includes:

- **Term Browse** – rapidly review documents by jumping to highlighted key search terms within the document
- **Document Browse** – quickly move to a specific document by entering a document number
- **Star Pagination** – review documents in the reporter pagination of choice by selecting a specific reporter and/or page numbers to navigate easily within the document
- **Explore** – navigate through a document quickly by linking to a specific section (i.e., case summary, disposition, opinion, dissent, etc.)
