

U.S. ARMY MATERIEL COMMAND

INSTALLATION MANAGEMENT COMMAND

MISSION

IMCOM integrates and delivers base support to enable readiness for a globally responsive Army.

HEADQUARTERS

Joint Base San Antonio — Fort Sam Houston, Texas

CORE COMPETENCIES

- Solider, Civilian and Family Readiness
- Installation Readiness
- Strategic Power Projection

Installation Management Command supports the United States Army by handling the day-to-day operations of U.S. Army installations around the globe. Army garrisons are communities that provide many of the same types of services expected from any small city. As “the Army’s home,” IMCOM provides security, protection, emergency response, housing, public works, parks and recreation, and childcare.

IMCOM’s workforce of more than 50,000 civilian professionals and 1,700 active-duty Soldiers operate 75 installations worldwide, delivering services to the Soldiers, Civilians and Families who live, work and train there. The command is organized into five directorates, which serve as the intermediate echelon between IMCOM HQ and the garrison:

IMCOM-Europe, based in Germany, supports U.S. Army Europe.

IMCOM-Pacific, located in Hawaii, supports U.S. Army Pacific Command.

IMCOM-Readiness, based at Fort Bragg, North Carolina, directly supports Forces Command, Army Test and Evaluation Command (White Sands Missile Range) and Army Reserve Command.

IMCOM-Sustainment is located at Redstone Arsenal in Alabama and directly supports the Army Materiel Command, Military District of Washington, Army Test and Evaluation Command, MEDCOM and SOUTHCOM.

IMCOM-Training, based at Joint Base Langley–Eustice, Virginia, directly supports Army Training and Doctrine Command, the United States Military Academy, Fort Hamilton and the Army War College.

Army Environmental Command, a subordinate command of IMCOM, delivers technical services to Army installations globally and provides environmental expertise, and program and project management on compliance, conservation, restoration and pollution prevention activities.

PRIORITIES

- Soldier and Family programs: Providing services and programs designed to improve the readiness and resilience of Soldiers, Civilians and Families.
- Readiness: Ensuring facilities that enable speed of assembly and deployment by effectively prioritizing projects, programs and services.
- Infrastructure: Addressing the urgent infrastructure challenges brought on by a decade of underinvestment.
- Support to training: Integrating and delivering services that enable demanding and realistic training to ensure our Soldiers and our formations are trained and ready to win in multi-domain operations.
